

CSI EXPERIENCE

DURATION

150 to 180 minutes
(according to guest numbers)

REQUIREMENTS

Sufficient space for a table plus
chairs per team

GUEST NOS.

6 – 200 guests

EVENT
VIDEO

A major miscarriage of justice is about to transpire and only your group of crack investigators can clear the innocent party...by catching the true criminal in time.

Working to eliminate characters from a list of suspects, teams must learn and use a variety of CSI skills to find and analyse crucial evidence. Using newly acquired knowledge of forensic science and Police procedures, teams will be assisted by our facilitators and instructors in a series of time critical tasks such as fingerprint harvesting, forensic photography and even shooting TV appeal videos.

In a competitive yet ultimately collaborative format, groups tackle the challenges to earn access to laboratory results that prove the innocence of those in the frame and continually narrow down the field of suspects to find the true culprit. Your teams will need to adapt in order to solve problems against constantly changing time constraints and evolving situations just like a real-life investigation.

Can any one team crack the case to free their colleague or will a cross county collaboration be required to see justice done?

Culminating in the viewing of each teams photofit and live television appeals, this is a hugely engaging and unusual experience designed to bring your teams together by better communication, teamwork and ultimately fun!

CSI EXPERIENCE

DETAILS

After an initial introduction and briefing, our facilitators and instructors will share their knowledge of forensic science and Police procedures with nominated team members. In turn they train their teams to use these techniques to tackle a series of fascinating table-top and site focused tasks based around:

- Area searching
- Blood Spatter analysis
- Collation
- Forensic photography
- NATO alphabet
- Partners in crime
- Photofit
- Preservation of evidence
- Video Presentation
- Weapons
- Who was driving?

Team success in each task earns them access to laboratory evidence in order to eliminate suspects from their board one by one – but not all can be removed by each team alone.

Hence although points are scored for each task and tallied to be able to give a conclusive winning team, teams will need to pool their results in order to solve the crime in a collaborative twist to the event.

FINALE

All teams come together to view their TV appeals on screen and final criminal photofits. Once the true perpetrator is found and their colleague exonerated...the winning team with the most points overall are crowned the CSI Experience winners (with medals to match!!)

ADD THAT SOMETHING EXTRA...

Bespoke company elements - please ask for details.

Components within the event can be tailored to reinforce your company's values and/or reiterate any training or company message.

Event Photographer - £600 plus VAT

Our seasoned photographer will capture all the action throughout the event and we'll send you the great shots after the event on CD.
