

CHARITY BARGAIN HUNT

DURATION

120-150

(according to guest numbers)

GUEST NOS.

Up to 210 guests

If you are looking for an event that can make a real contribution to a local charity, yet in a team-based and interactive format then this treasure hunt with a difference is just the ticket!

Each team is issued with a tablet using the latest GPS technology to create an event which is engaging and involves the whole team – also giving a real feel-good factor and powerful memories of the lasting contribution made.

The Charity Bargain Hunt works by setting you a series of 'hotspots' on your tablet based around the local area. It is not until you navigate to each individual hotspot location that the questions appear on your tablet! We always seek to maximise the potential of your location and relate the questions to the local area, making the event as interesting and informative as possible.

With the focus of the event on charity, we will have arranged in advance with a local hospice for example, what items would make a real difference to their work. We write the event accordingly with hotspots set to send the teams to various shops once they have answered questions correctly. Teams will then be tasked with purchasing (or even negotiating) items whether it be toys, clothing, or food etc. to then be presented to the charitable organisation at the conclusion of the event.

"We had a fabulous time & were delighted to help a local hospice" Toshiba

CHARITY BARGAIN HUNT

DETAILS

Prior to the event, we will arrange with a local charity, hospice or nursing home to source a number of items that they are in need of. Then the GPS Treasure Hunt is written accordingly.

Your teams will be welcomed by our Event Manager, who will brief the teams, explain the equipment and task ahead and make sure that they are fully prepared for their quest.

For larger team numbers your Event Manager kicks off the event with a special Code Breaker challenge which enables the teams to start off at staggered times.

Armed with GPS tablets, all members of the team will be involved in navigating to various pre-set GPS hotspots where questions await with varying points awarded to maintain a competitive edge!

Also popping up as the teams arrive at the hotspots is the information on the charity items they are required to source or purchase along the way. Just to round the challenge off, there are also team bonus challenges which must be completed en-route to earn extra points once back at base.

As the event timer on your tablet ticks down, teams must head back to base with their purchased items. These are pooled together and then presented as a donation to a representative of the chosen charity.

ADD THAT SOMETHING EXTRA...

Bespoke GPS questions - £250 plus VAT

Personalise your Quest to include product, industry or company related questions/challenges of your own – including cheeky questions about company 'celebrities'!

Or perhaps you prefer to add a twist of mystery to your event with a theme which will continue through the clues, questions, and challenges.

Whether it is Espionage, Sporting, or a specific theme of your own – this Quest is ultra-flexible, and we would be delighted to oblige!

Event Photographer - £600 plus VAT

Our seasoned photographer will capture all the action throughout the event, and we'll send you the great shots after the event on CD.
