

CHRISTMAS LEGO ANIMATION

DURATION

120-180 minutes
(according to guest numbers)

GUEST NOS.

6-300 guests

REQUIREMENTS

Sufficient space for
a table plus chairs
per team

Not only is Lego the biggest selling toy of all time, it now features in a series of animated movies – and this is your chance to produce a Lego movie of your own as you learn the art of Stop Motion Animation!

Following an introduction to Stop Motion Animation techniques, teams will be equipped with a large supply of Lego, craft supplies and corner studios before being tasked with creating, filming and editing a Christmas Lego movie of their own.

Once creative and technical roles have been filled and concepts completed, teams will begin building sets and creating Christmas scenes. Whilst each member of the team must take control of their own area it is crucial that the team works in synergy to ensure the whole production fits together effectively.

The event concludes with a big screen preview of each team's production and judging from your event manager. Mince Pies and a bottle of Sherry will be awarded to the winning team based on all round creativity from concept to delivery encompassing storyboard, set design and video motion in the end product!

“Without exception, the most interesting and unique team building event I have ever been involved in.” Eric Wright FM Ltd
