

MAKING PERFECT SCENTS

DURATION

60-300 minutes
(according to guest numbers and workshop)

REQUIREMENTS

Suitable seating area for delegates.

GUEST NOS.

5 – 200

The idea is simple: if Victoria Beckham, J-Lo, and a host of other celebrities can create their own fragrance, then why shouldn't you?

Our perfume consultant guides your guests through an enjoyable, relaxing and fun fragrance journey helping them to combine any number of our 21 exquisite blends. The emotions, characteristics, and ingredients of each blend are discussed, assisting guests to select their favourites, whether it be a heavy base note such as musky, or a light, fruity top note. They'll then create their unique fragrance and even get to name it before taking their own bottle home!

Our range of perfume making experiences can easily be customised to meet specific party requirements and are perfect for Christmas, Summer and Kick-Off celebrations as well as team building experiences for work related events.

From one to one with a Perfumer for the ultimate experience to our drop by Perfume Bar, we offer unique experiences that will add an interesting fragranced element that your staff or guests will love.

"The perfume making workshop was brilliant! The girls were really good with our group and they all got to do extra fragrances and take them away." - Polypipe

MAKING PERFECT SCENTS

DETAILS

Bringing a bespoke fine fragrance to the public, this is a very innovative concept which is a great experience for everyone. We have 3 formats available to choose from:

The Fragrance Bar

An informal session where guests can 'drop into' the bar and create a fragrance to take home, which is an excellent addition for larger events. Guests pop by the bar to sample 21 blends at the perfume station where our team of perfume stylists expertly guide each guest to design their own fragrance, which is then hand blended for them to take away on the day.

The Design Experience

A 2-hour session where each guest creates their own bespoke fragrance to leave with. They will also receive a perfume bottle or atomiser filled with their unique perfume. Every unique fragrance formulation is noted in our perfume library so they can re-order their bespoke fragrance at any time. There are 3 different experiences available for guests, which they will either take home a 5ml, 20ml or 30ml bottle.

The Workshop Experience

A fascinating half day workshop of insight into the perfume industry, materials and design. Guests then harness this knowledge to create a unique fragrance which can be used to reinforce the corporate identity.

We can of course personalise perfume bottles, bags and boxes with your company or individual branding, which are ideal for staff or corporate gifting or to include in event goody bags. So please contact us to discuss bespoke requirements.
