Inspired by the award-winning TV program, Master The Task is an event that will intrigue, challenge, amuse and surprise you. Interpretation is the key, so no one event will be the same!

Our "Task Masters" will choose a series of crazy tasks for Teams to compete against each other. The element of surprise is part of the challenge, participants won't have seen the tasks prior to the event so they'll have to have their wits about them!

It's down to each Team to interpret how to complete the tasks....which could look completely different depending on how they read it. This makes the event unique, as you never know what the outcome may look like!

Rotating around each activity in turn, teams must use their skills wisely and pull to their strengths as they rack up the points in their bid for success. Using a combination of physical, creative and mental challenges, Master the Task has something for everyone!

"This is to thank you for an exciting and brilliant team building event today. It was fabulous!!" Shell
