EVENT
VIDEO

Rags to Riches is the ultimate fast moving inter-team competition. The stakes are high as teams gamble to become multi-millionaires. Light hearted and great fun, each round provides the opportunity to win or lose a fortune in a frenzy of team activity.

The event follows a series of head to head games with teams successively competing against each other. Strategically gambling their wads of complimentary cash, the pressure is on to beat the opposition and build a bigger bankroll.

As the rounds draw to a close, teams face the highs and lows of wealth or ruin as they see their fortunes ebb and flow. Passions run high as the competition builds to a nail-biting climax with shrewd gamblers looking to consolidate their winnings and desperate teams risking every cent in the hope of a last gasp jackpot.

When the final round is finished and the room hushed in expectation, teams count their cash under the watchful eye of the Master of Ceremonies. Then amid the cheers and jeers of their fellow contestants, the winners make their way to the front for the victory presentation.

“...the games were a real success. Today everyone is raving about how much fun it was and how competitive it became!” Heineken
