Climbing on the back of giants, here is your group's chance to truly feel like a Hollywood star! Each team will be given a different iconic film to work with in order to complete the momentous task of re-enacting their very own version of a famous movie scene!

Following in the footsteps of the great directors, teams must exercise their creativity whilst attempting to reproduce a riveting piece of cinematic magic that will hold their audience spellbound.

Shooting locations, costume, casting, make up and direction are all crucial ingredients in your teams being able to recreate the movie magic that made each scene so memorable. And so excellent communication and ingenuity will be top of the skills list needed by your plucky teams of film-makers.

You will be provided with video cameras, original scripts, props, costumes, hats and wigs whilst the teams provide the wit, actors, crew and glamour! Laptops showing each team's movie scene provide the source material – but then it's over to you. Note that teams will be directing and recording themselves, meaning that a strong yet creative Director is a must...

"...we really got into it and enjoyed it. I have already had requests to see the films from those who had attended!" Close Brothers
