

THE HUNGRY GAMES

DURATION

180 minutes

REQUIREMENTS

Flat, grassed open space

GUEST NOS.

10 - 168 guests

EVENT
VIDEO

Inspired by the Hunger Games phenomenon, this event allows your teams to step into the world of arena survival! Pitted against your colleagues, can your team members muster all their target, combat and bush survival skills to triumph for their district?

In order to win, your teams (or districts) must firstly sharpen their Weapons Skills with Axe Throwing, Spear Making & a Combat Archery Tournament played with specially designed bows, facemasks and patented foam-tipped arrows. This is not only static target practice, but also pits you against moving targets that shoot back at you!

Teams will scramble to earn points and additional equipment for the 2nd half of the event...

Which sees teams assemble the best Hunger Games team camp possible consisting of waterproof shelters, live fires and warm drinks. Teams must first of all create a structure to keep them dry during a torrential downpour (water included!), and also achieve a sustainable fire using one of three traditional methods that will also make a warm drink for each member of the team.

For a longer event, you can even upgrade to include bread baking or raft building as part of the challenge. A unique and exhilarating experience, this event will definitely leave you hungry for more!

“It was brilliant and Graeme and the team were fantastic” Zuora

THE HUNGRY GAMES

THE EVENT

The activities are challenging and fun yet will require skill, strategy and action. All tasks are demonstrated and supervised by our experienced instructors, with two distinct set of challenges to be learnt by each tribe:

Weapons Training:

Axe Throwing

Under the guidance of our instructors, guests will use our lightweight resin axes with the aim of consistently hitting the centre of the target boss, for maximum effect!

Spear Building & Throwing

Using pine resin glue, feathers & cordage to adapt your spears, teams will be tasked with displaying their deadly accuracy to impress our instructors...

Combat Archery

Taking place amid the specially laid out combat arena, teams will try to score points by hitting the opposing team members in a live 'game'! Once kitted up in safety gear and briefed on the safe use of the archery equipment, teams (or districts) will compete in a series of matches aiming to either capture the flag or be the last team standing!

Survival Training:

District Shelter Building

Can the teams create a wind proof structure from their materials to keep the entire team dry during a downpour? Water is included!

Fire Making

Achieving a sustainable fire capable of cooking bread and boiling water for the team drinks sounds easy...but we'll see who goes hungry.

THE WINNERS

Who will be satisfied with a win and who will be left feeling empty? Once the teams have demonstrated their weapons skills, our Hungry Games judges will rate each camp before awarding the victorious winners their team prizes!

ADD THAT SOMETHING EXTRA...

Bread Baking Challenge - £150 plus VAT per team

Extend your Hungry Games experience by adding a 15-20-minute Bread Baking element to the camp. Teams will earn ingredients, pan baking equipment and instructions.
