Can you spot a Cher song in just a few seconds? And identify in which decade it was a hit? If the answer is yes, then Bingo is right up your street! Using the password secure Zoom platform, this is a great way to get the energy flowing to get the party started.

Every person is given a Bingo sheet/card (see above) – there are 150 unique & different versions, so people do not have the same card unless numbers are above 150. There are 75 songs that are played (not all of them will be necessarily)

The event is individual based not team based. People competing to get the 4 corners, a horizontal line of 5 & eventually a full house (all 15) ticked off. Simply the song is played, and the 10/15 second clip will always contain the name of the song – you have to recognise it & tick off on your sheet

It was a really fun afternoon, and everyone thoroughly enjoyed, the hosts were spot on ! Prudential
