

WORLD CUP CHALLENGE

DURATION

120 – 150 minutes
(according to guest numbers)

REQUIREMENTS

Flat, grassed open space

GUEST NUMBERS

10 - 335 guests

The World Cup Challenge is a highly visual and entertaining session of football-themed team building activities - with the emphasis very much on team participation, interaction, laughter & a sprinkling of football skills also involved.

Having been divided into teams (countries), the event commences with everyone participating in a lively aerobic warm up session, delivered by our Comperè and demonstrated by our own in house events team!

After bodies have been warmed and muscles gently stretched, teams will move to their first challenge. These have been carefully and imaginatively designed to enable full participation by everyone, regardless of sporting and fitness levels.

Each country competes head to head against another country on each activity, trying to maximize their score before moving onto the next round. An exciting blend of inflatable games and bonus football fun rounds, The World Cup Challenge will energise and motivate guests to work together in a fun and entertaining environment.

This is truly a day and event to remember!

WORLD CUP CHALLENGE

THE ACTIVITIES

Your teams will compete head to head on each of the following activities – please note that the chosen activities may vary depending on numbers and time constraints:

Human Table Football

The boot is definitely on the other foot as you and your guests are strapped into our giant inflatable pitch for a game of footie like no other!

Darts Football

This is a hilariously fun sport played with a giant blow-up dartboard and specially designed 'foot darts' which stick to the velcro covered board when you kick them! Scored in the same manner as traditional darts, this fresh twist on the ever-popular game of darts is a brilliant way to involve all your guests!

Zorb Football

Strap yourselves into your own one man body Zorb and rather than tackle, use the more effective 'barge' to win the ball from your opponents!

Penalty Shootout

With quick footwork and close control skills, dribble to the penalty spot and try to score a goal past our goalkeeper! Points will be awarded for each goal scored.

Precision Challenge

Inside our inflatable structure, the task is simple – you must kick the ball through one of the several holes, with different points available depending on the difficulty of the target.

Skills Challenge

Dribbling & Keepie Uppies - with super slick skills, dribble around a selection of obstacles with teams losing points for each obstacle hit; and whilst we're not expecting any world records (currently 26 hours) for keepie uppies, points will be awarded per uppie!

THE WINNING TEAM

Each member of the winning team will be awarded a gold medal whilst the opposing teams look on and applaud in a sporting manner!
