

# What happens if it rains?

## Don't panic, we've got you covered

If the weather is wet and cold we always continue with booked activities but offer ponchos and a teepee shelter if needed. Only in very extreme weather conditions would we stop the event for health and safety reasons. This hasn't happened yet! If you would like to add an indoor wet weather contingency plan to your event then you have 2 options available.

### OPTION 1: Week Prior

**No additional charge - strictly subject to availability of equipment and staff.**

This option allows you to decide 1 week prior to the event whether you would like to proceed with the booked outdoor event based on weather forecasts or whether you would like to switch to an indoor replacement.

The decision must be taken 1 week prior and then cannot be changed again should the weather turn out to be good! No refund is applicable on any difference in price between the outdoor and indoor events.

### OPTION 2: Decision on the Day

**Minimal charge of £400 plus VAT**

This option allows you to make a decision when we arrive on-site as to which activity you would like to go ahead with, before anything is set up. As this is an additional event, we would have to make a minimal charge of £400 plus VAT to cover the equipment not being able to be sold again that day and for also any additional transport that may be needed too.

If you would like to add a wet weather contingency to your day then please do contact us to discuss further.
