

# GPS TREASURE HUNT

## DURATION

90 – 150 minutes  
(according to guest numbers & location)

## REQUIREMENTS

A private space for event brief and debrief

## GUEST NOS.

6 - 300 guests

EVENT  
VIDEO

**Not just a Treasure Hunt but an integrated event using the latest tablets and GPS technology to create a team event which is engaging, has something for everybody and draws upon your individual guests' inquisitiveness, creativity and skills.**

Great for either the city centre or rural environments, the event is tailored to suit your precise requirements whether it be set against the backdrop of the historical sights of London or York with cryptic questions, or in the rural delights of a country house hotel combined with a series of challenges.

The GPS Treasure Hunt works by setting you a series of 'hotspots' on your tablet and it is not until you navigate to each individual hotspot that your instructions appear on your tablet – where possible we always seek to maximise the potential of your location and so you may have to find the answer to a question in the vicinity of a notable landmark. Add to that the bonus challenges set and the team will have lots of opportunities to use their wits to triumph!

Careful planning is essential to maximise your team's score as not every hotspot has the same outcome – and the game is on to outperform the competition and earn the highest score possible, to emerge victorious & claim the winners prize!

**"We had a fabulous time on the event and loved seeing our colleagues in that light"**

# GPS TREASURE HUNT

## DETAILS

Your teams will be welcomed by our Event Manager, who will brief the teams, explain the equipment and make sure that they are fully prepared for their quest. For larger team numbers your Event Manager kicks off the event with a special Code Breaker challenge which enables the teams to start off at staggered times.

Armed with GPS tablets, all members of the team will be involved in navigating to each pre-set GPS hotspot where challenges with varying point awards await! At each location, teams hotfoot it to get close to the marked GPS hotspots flashing up on the tablet.

Once there, corresponding questions are revealed giving the teams a chance to earn points by answering correctly - only when your GPS verifies that you are in exactly the right location will your team be able to activate the hotspot and enter an answer!

Then of course there are the team bonus challenges which must be completed imaginatively en-route, to earn extra points for the most creative responses.

Teams can access the live scoreboard to see how they and their competitors are faring in real time – which should spur them on to complete as many challenges as possible and arrive back at the venue before their time runs out.

Once back, our Event Manager will display photos from the event onto a pop-up screen, before of course revealing the final results from the event... with medals awarded to the triumphant team in a prize giving finale!

## WET WEATHER BACK-UP

Should the “great” British weather put a dampener on things, we can either adapt the event to answer the questions and complete the challenges in the nearest pub or coffee shop – or bring everyone back to base, and instead run an alternative quiz-based event.

## ADD THAT SOMETHING EXTRA...

### **Bespoke GPS questions - £325 plus VAT**

Personalise your Treasure Hunt to include product, industry or company related questions/ challenges of your own – including cheeky questions about company ‘celebrities’!

Or perhaps you prefer to add a twist of mystery to your event with a theme which will continue through the clues, questions and challenges. Whether it is Espionage, Sporting or a specific theme of your own – the Hunt is ultra flexible and we’d be delighted to oblige!
