

JUNK FUNK

DURATION

15 – 90 minutes

REQUIREMENTS

Space for guests to participate and for the host to teach.

GUEST NOS.

5 to 5000 guests

Surprise your guests and energise your event whilst harnessing your teamwork with Junk Funk. Transform your team into a high-energy orchestra, using nothing more than everyday scrap. It definitely isn't the norm! But it certainly does the job! Go on try something different – We bet none of your guest's have done this before!

Your guest's will return from coffee or lunch to a transformed meeting room. Your conventional room is now littered with hazard tape, ladders, pipes, cardboard boxes, piles of junk. There are now people in hard hats and High Viz pounding out rhythms on huge industrial bins!! You certainly will never look at these items the same again.

Our facilitators will show you the melody, the tone, and the rhythms available on these exquisite instruments. It really is hard to believe how good these items can sound! Your team will be transformed into a musical ensemble and create a routine that combines their musical skills with some chosen moves.

“I have been to a lot of conferences and been asked to do quite a few team building activities in the past and I can safely say that this one was the best one, everyone got really involved and genuinely had an amazing time” Peter Carruthers
