(according to guest numbers)

## REQUIREMENTS

Flat lawned area

## GUEST NOS.

10 – 300

SEE THE EVENT IN  
ACTION!

**Rags to Riches is the ultimate fast moving inter-team competition. The stakes are high as teams gamble to become multi-millionaires. Lighthearted and great fun, each round provides the opportunity to win or lose a fortune in a frenzy of team activity.**

The event follows a series of head-to-head games with teams successively competing against each other. Strategically gambling their wads of complimentary cash, the pressure is on to beat the opposition and build a bigger bankroll.

As the rounds draw to a close, teams face the highs and lows of wealth or ruin as they see their fortunes ebb and flow. Passions run high as the competition builds to a nail-biting climax with shrewd gamblers looking to consolidate their winnings and desperate teams risking every cent in the hope of a last gasp jackpot.

When the final round is finished and the group is hushed in expectation, teams count their cash under the watchful eye of the Master of Ceremonies. Then amid the cheers and jeers of their fellow contestants, the winners make their way to the front for the victory presentation.

**“...the games were a real success. Today everyone is raving about how much fun it was and how competitive it became!” Heineken**

# RAGS TO RICHES

## DETAILS

The games will require some thought and skill, but most importantly strategy and teamwork – and above all else, fun! Each member of the team will need to work together using their individual talents to achieve team success. Your guests will be divided into an even number of teams comprising between five and eight guests, and we will select games from the following to suit the group size.

### Table Football

A frantic game of table-top football with a bonus for the victors and nothing for the losers. Should there be a draw at full time the winner is decided with a golden goal or your money back.

### Basketball Shoot Out

A skilful game of basketball with each team member seeking to shoot as many baskets as possible in a head-to-head race against the clock!

### Giant Bar Skittles

A simple but tricky game as each team member seeks to knock down as many pins as possible.

### Splat the Rat

A game of fast reflexes as teams try to 'splat' the rat with a baseball bat as it emerges at full speed from the drainpipe!

### Skittles

English ninepins played on a full size 20-foot skittle alley.

### Quoits

A traditional game played on a decorative backboard with accuracy and a light touch needed to throw the hoops onto the pegs.

### Golf Putting

Played on a fifteen-foot green, each team member has a chance to score points and earn money for their team.

### Bowls

Each team member plays an 'end' against a member of the opposition with points scored by being nearest to the jack.

### Darts

A traditional game played head-to-head with teams vying to 'go round the clock' in the fastest possible time or outscore an opponent head to head.

## THE FINALE

At the end of the action-packed programme the winnings will be counted. The team with the most money will be declared the winners.

### Prizes

We will provide a Winner's Medal for each member of the Winning Team.
