

SPY SCHOOL

DURATION

90 – 180 minutes
(according to guest numbers)

REQUIREMENTS

Indoor and outdoor
Space

GUEST NOS.

10 – 230

SEE THE EVENT IN
ACTION!

This is your chance to be spies for the day, training your minds and honing your knowledge to graduate top of the Spy School class. Your team will be put through their paces in our Spy training school designed to hone and test the basic mental and combat skills needed to survive an espionage mission.

Intelligence, skill and luck are required to successfully complete the mix of indoor and outdoor activities contained within the 2 zones: Mental Agility and Weapons Training. Success in the training challenges will result in teams being rewarded with graded marks to add to their spy team's total.

Spy School is designed for maximum participation with little physical demands enabling all guests to enjoy the activities provided. But be warned – cunning, subterfuge and secrecy are vital skills if you want to earn your place amongst the elite.

With all challenges complete and the scores collated, the team with the highest total score will graduate from the school and be presented with their official 'Secret Agent' Medals of Honour!

"The event was excellent and everyone really enjoyed it...it was nice to do something fun yet still challenging." Environment Agency

SPY SCHOOL

MENTAL AGILITY – INDOORS

Observation post

Brief excerpts from a famous Spy Movie are shown and each team of aspiring spies is required to answer a series of questions relating to the excerpts. The ultimate test of observation and memory as no written notes may be taken!

International I.D.

An intriguing test of knowledge and awareness as teams endeavour to identify flags and symbols from countries around the world. This will require the team to put their heads together and pool their knowledge...and avoid being out foxed by the red herrings.

Military Intelligence

A real test of thought patterns and brain waves as teams tackle a series of tricky mind games, designed to outwit and confuse. Only the most organized spies will survive this past paced and baffling brain bashing round.

WEAPONS TRAINING – OUTDOORS

Hand Axe Throwing

Some spy situations call for unusual weapons – cue axe throwing! For use in our safety cages, our lightweight resin axes have been chosen to help would be spies to master the mind set and rhythm needed to consistently hit the centre of the wooden target boss. Whilst trying to rack up the scores for your team is good, the satisfying thud of the blade in the wood as your hit the target is a reward all of its own!

The Sniper Range

Working as crack teams, your team members will attempt to hit the high scores on our 30 yard sniper rifle range. Using our highly accurate telescopic air rifles, teams test their concentration and skill against the FBI style targets. To aid their pinpoint accuracy, one member of the team will be a 'spotter' using a super powerful tripod mounted 'scope and calling out adjustments. We can't promise to turn you into a marksman but you will receive quality instruction and plenty of shots!

ADD THAT SOMETHING EXTRA:

Assault Course - £550 plus VAT

... and if you want to push your athletes to the extreme, you can add the assault course where balance, endurance and speed are all put to the test! The course includes quick feet tyres, cargo net crawl, balance beam & a throwing challenge to reward accuracy as well as speed!
