(according to guest numbers)

## REQUIREMENTS

Indoor and outdoor  
Space

## GUEST NOS.

10 – 230

Join our 'Spy School' and see if you can graduate top of the class, as a secret agent. Becoming a spy for the day, you and your team will undertake a series of challenges befitting of an adept spy, designed to test mental agility with weapons training, to complete an espionage mission.

Intelligence, flair and fortune are required to successfully complete the mix of both indoor and outdoor activities contained within the 2 zones: Mental Agility and Weapons Training.

Success in the spy challenges means teams are rewarded with graded marks to combine to their team's overall total. With the challenges complete, and the scores collated, the team with the highest total will graduate from spy school as the top 'secret agent' who will be presented with their 'Medals of Honour!'

Quick decision making, clear communication and a sprinkle of spy charm, are just some of the skills needed to earn your place amongst the elite.

## MENTAL AGILITY – INDOORS

### Observation Post

Brief excerpts from famous spy movies are shown and each team of ambitious spies is required to answer a series of questions relating to the excerpts. The ultimate test of observation and memory, as no written notes may be taken!

### Scan and Scrutinise

A quick buzzer challenge, teams will swiftly study a series of spy images to test their ability to identify variances. You will need to be quick off-the-mark with the ability to discover the detail, to gain vital points.

### Bomb Decoding

With your own bomb case to decode, you'll tackle a series of tricky mind games and puzzles designed to outwit and confuse. A real test of thought patterns and brain waves, only the most methodical spies will survive this baffling brain-bashing round.

## WEAPONS TRAINING – OUTDOORS

### Hand Axe Throwing

Spies need to be prepared for unusual weapons! Our lightweight axes, used in our safety cages, are designed to master the right mind set and rhythm needed to consistently hit the centre of the target. The thud sound as the axe lands in the target is very satisfying, but don't forget to notch up the scores for your team.

### Pistol Training

First, you'll learn how to load the pistol then your ability to hit the targets will be tested. Work on your concentration and skill, to gain pinpoint accuracy. We can't promise to turn you into a marksman but you will receive quality instruction and plenty of rounds!

### Grenade Drill

Presented with a number of different scenarios, you will be a quick-thinking spy in combat, entering a number of settings which require you to disperse a grenade to defeat the enemy.

### ADD THAT SOMETHING EXTRA: [Assault Course - £550 plus VAT](#)

If you want to push your spies to the extreme, you can add our assault course where balance, endurance and speed are all put to the test! The course includes quick feet tyres, cargo net crawl, balance beam and a throwing challenge to reward accuracy as well as speed!
